**Article 4.6**

**Fund for bilateral relations**

1. The Beneficiary State shall set aside a minimum of 2% of the Beneficiary State’s total allocation for a fund to strengthen bilateral relations between the Donor States and the Beneficiary States. The amount shall be fixed in the MoU. The eligibility of expenditures to be covered by the fund under this paragraph is detailed in Article 8.8.

2. The National Focal Point shall be responsible for the use of the funds mentioned in paragraph 1 and report on the use of them in the Strategic Report. The first date of eligibility for support under this article shall be the date of the last signature of the MoU with the respective Beneficiary State. The final date of eligibility for support under this Article shall be 30 April 2025.

3. Payments of the funds for bilateral relations shall take the form of an advance payment, interim payments and payment of the final balance and shall be made in accordance with Articles 9.2, 9.3 and 9.4. 5. If the National Focal Point takes the role of a Programme Operator, the National Focal Point shall not be designated as Irregularities Authority.

Financial instruments should be provided through structures set up at national, regional, transnational or cross-border level.

3. Where financial instruments are used, the provisions of this Regulation and primarily those relating to the selection of projects and eligibility of expenditure, may not apply. Chapter 8
Eligibility of expenditures

Article 8.1
Eligible expenditures of a programme

Eligible expenditures of a programme are:

(a) management costs of the Programme Operator in accordance with Article 8.10;
(b) payments to projects within the programme in accordance with this Regulation, the programme agreement and the project contract;

Article 8.2
General principles on the eligibility of expenditures

1. The principles set forth in this article shall apply mutatis mutandis to all eligible expenditures unless otherwise explicitly stated in this Regulation.

2. Eligible expenditures of projects are those actually incurred within the project, which meet the following criteria:

(a) they are incurred between the first and final dates of eligibility of a project as specified in the project contract;

(b) they are connected with the subject of the project contract and they are indicated in the detailed budget of the project;

(c) they are proportionate and necessary for the implementation of the project;

(d) they must be used for the sole purpose of achieving the objective(s) of the project and its expected outcome(s), in a manner consistent with the principles of economy, efficiency and effectiveness;

(e) they are identifiable and verifiable, in particular through being recorded in the accounting records of the Project Promoter and/or project partner and determined according to the applicable accounting standards of the country where the Project Promoter and/or project partner is established and according to generally accepted accounting principles; and

(f) they comply with the requirements of applicable tax and social legislation.

3. Expenditures are considered to have been incurred when the cost has been invoiced, paid and the subject matter delivered (in case of goods) or performed (in case of services and works). Exceptionally, costs in respect of which an invoice has been issued in the final month of eligibility are also deemed to be incurred within the dates of eligibility if the costs are paid within 30 days of the final date for eligibility. Overheads and depreciation of equipment are considered to have been incurred when they are recorded on the accounts of the Project Promoter and/or project partner.

4. Where new or second hand equipment is purchased, only the portion of the depreciation corresponding to the duration of the project and the rate of actual use for the purposes of the project may be considered eligible expenditure.

5. The Project Promoter’s internal accounting and auditing procedures must permit direct reconciliation of the expenditures and revenue declared in respect of the project with the corresponding accounting statements and supporting documents.

6. In case of projects implemented by an international organisation or body or an agency thereof, the programme agreement may include specific provisions with regard to the eligibility of expenditure.

Article 8.3
Eligible direct expenditures in a project

1. The eligible direct expenditures for a project are those expenditures which are identified by the Project Promoter and/or the project partner, in accordance with their accounting principles and usual internal rules, as specific expenditures directly linked to the implementation of the project and which can therefore be booked to it directly. The following direct expenditures are eligible provided that they satisfy the criteria set out in Article 8.2:

(a) the cost of staff assigned to the project, comprising actual salaries plus social security charges and other statutory costs included in the remuneration, provided that this corresponds to the Project Promoter’s and project partner’s usual policy on remuneration. The corresponding salary costs of staff of national administrations are eligible to the extent that they relate to the cost of activities which the relevant public authority would not carry out if the project concerned were not undertaken;

(b) travel and subsistence allowances for staff taking part in the project. Having regard to the principle of proportionality, travel costs, including subsistence allowance, may be calculated as a lump sum, on the basis of defined rules approved by the Programme Operator;

(c) cost of new or second hand equipment. In case the Programme Operator determines that the equipment is an integral and necessary component for achieving the outcomes of the project, the entire purchase price of that equipment may, by way of exception from the rule contained in paragraph 4 of Article 8.2, be eligible;

(d) purchase of land and real estate under the conditions set in Article 8.6;

(e) costs of consumables and supplies, provided that they are identifiable and assigned to the project;

(f) costs entailed by other contracts awarded by a Project Promoter for the purposes of carrying out the project, provided that the awarding complies with the applicable rules on public procurement and this Regulation; and
(g) costs arising directly from requirements imposed by the project contract for each project.

2. Where the entire purchase price of equipment is eligible in accordance with point (c) of paragraph 1, the Programme Operator shall ensure that the Project Promoter:

(a) keeps the equipment in its ownership for a period of at least five years following the completion of the project and continues to use that equipment for the benefit of the overall objectives of the project for the same period;
(b) keeps the equipment properly insured against losses such as fire, theft or other normally insurable incidents both during project implementation and for at least five years following the completion of the project; and
(c) sets aside appropriate resources for the maintenance of the equipment for at least five years following the completion of the project.

The specific means for the implementation of this obligation shall be specified in the project contract. The Programme Operator may release any Project Promoter from the above obligations with respect to any specifically identified equipment where the Programme Operator is satisfied that, having regard to all relevant circumstances, continued use of that equipment for the overall objectives of the project would serve no useful economic purpose.

3. In exceptional and duly justified cases, the Programme Operator may suggest additional expenditures to be eligible or exclude certain expenditure listed in paragraph 1. Such deviations, if approved by the FMC, shall be explicitly stipulated in the programme agreement.

**Article 8.4**

**Standard scales of unit costs**

1. The project grant may take the form of standard scales of unit costs. In such case the amount shall be established in one of the following ways:

(a) in accordance with the rules for application of corresponding scales of unit costs applicable in European Union policies for similar types of project and entities involved;
(b) in accordance with the rules for application of corresponding scales of unit costs applied under schemes for grants funded entirely by the Beneficiary State where the Project Promoter or partner is located, or the Donor State where the donor project partner is located, for similar types of project and entities involved.

2. The use of standard scales of unit costs, their amount and the way they are established shall be determined in the project contract. The use of standard scales of unit costs, their amount and the way they are calculated for a project partner shall be stipulated in the partnership agreement between the Project Promoter and the project partner.

3. The provisions of this article shall apply *mutatis mutandis* to all eligible expenditures unless otherwise explicitly stated in this Regulation.

**Article 8.5**

**Indirect costs in projects (overheads)**

1. Indirect costs are all eligible costs that cannot be identified by the Project Promoter and/or the project partner as being directly attributed to the project but which can be identified and justified by its accounting system as being incurred in direct relationship with the eligible direct costs attributed to the project. They may not include any eligible direct costs.

Indirect costs of the project shall represent a fair apportionment of the overall overheads of the Project Promoter or the project partner. Project promoters and project partners may identify their indirect costs according to one of the following methods:

(a) based on actual indirect costs for those Project Promoters and project partners that have an analytical accounting system to identify their indirect costs as indicated above;
(b) a flat rate of up to 25% of total direct eligible costs, excluding direct eligible costs for subcontracting and the costs of resources made available by third parties which are not used on the premises of the Project Promoter or project partner;
(c) a flat rate of up to 15% of direct eligible staff costs without there being a requirement for the Programme Operator to perform a calculation to determine the applicable rate; or
(d) a flat rate applied to direct eligible costs based on existing methods and corresponding rates applicable in European Union policies for similar types of project and Project Promoter;
(e) in the case of Project Promoters or project partners that are international organisations or bodies or agencies thereof, indirect costs may, in line with specific provisions in the programme agreement, be identified in accordance with the relevant rules established by such organisations.

2. The application of the method described in point (b) of paragraph 1 is subject to the calculation of the rate on the basis of a fair, equitable and verifiable calculation method or a method applied under schemes for grants funded entirely by the Beneficiary State for similar types of Project and Project Promoter.
3. The method of calculating the indirect costs and their maximum amount shall be determined in the project contract. The method of calculation of indirect costs of a project partner shall be stipulated in the partnership agreement between the Project Promoter and the project partner.

4. In duly justified cases, the Programme Operator may suggest restricting the eligibility of indirect costs. Such restrictions, if approved by the FMC, shall be explicitly stipulated in the programme agreement.

Article 8.6

Purchase of real estate and land

1. The cost of purchase of real estate and land not built on may be eligible under the following conditions, without prejudice to the application of stricter national rules:

(a) there shall be a direct link between the purchase and the objectives of the project;

(b) purchase of real estate and/or land may not represent more than 10% of the total eligible expenditure of the project, unless a higher percentage is explicitly authorised in the programme agreement and set in the decision to award the project grant;

(c) a certificate shall be obtained prior to the purchase from an independent qualified evaluator or duly authorised official entity confirming that the purchase price does not exceed the market value and that it is free of all obligations in terms of mortgage and other liabilities, particularly in respect of damage related to pollution. In case of purchase of real estate the certificate must either confirm that the building in question is in conformity with national regulations, or specify what is not in conformity with national regulations but which is to be rectified by the Project Promoter under the project;

(d) the real estate and/or the land shall be used for the purpose and for the period specified in the decision to award the project grant. The ownership must be transferred to the Project Promoter, or those explicitly designated by the Project Promoter in the project application as recipients of the real estate and/or the land, prior to the completion of the project. The real estate and/or the land cannot be sold, rented, or mortgaged within five years of the completion of the project, or longer if stipulated in the project contract. The FMC may waive this restriction if it would result in an unreasonable burden on the Project Promoter;

(e) the real estate and/or land may only be used in conformity with the objectives of the project. In particular, buildings may be used to accommodate public administration services only where such use is in conformity with the objective of the project; and

(f) the purchase of real estate and/or land shall be explicitly approved by the Programme Operator prior to the purchase, either in the project contract or by a later decision.

2. Real estate shall mean buildings constructed or under development and the appropriate rights to the land on which they are built.

3. The restrictions referred to in paragraph 1(d) apply also to buildings that are constructed, reconstructed or renovated through a financial contribution from the EEA Financial Mechanism 2014-2021.

4. The mortgage restriction referred to in paragraph 1(d) does not apply to a mortgage taken in favour of the Programme Operator or the National Focal Point when its purpose is solely to ensure compliance with the said paragraph.

5. Expenditure on site preparation and construction which is essential for the implementation of the project may be eligible.

6. The cost of real estate and/or land already owned, directly or indirectly, by the Project Promoter, or purchase of real estate and/or land owned, directly or indirectly, by the project partner or a public administration, shall not be eligible. Under no circumstances shall real estate and/or land be purchased for speculative purposes. The real estate and/or the land shall not have received a national or external donor grant in the last 10 years which would give rise to a duplication of funding.

Article 8.7

Excluded costs

1. This article shall apply mutatis mutandis to all costs unless otherwise explicitly stated in this Regulation.

2. The following costs shall not be considered eligible:

(a) interest on debt, debt service charges and late payment charges;

(b) charges for financial transactions and other purely financial costs, except costs related to accounts required by the FMC, the National Focal Point or the applicable law and costs of financial services imposed by the project contract;

(c) provisions for losses or potential future liabilities;

(d) activities aiming at strengthening cooperation and exchanging experiences and best practices between the Programme Operators and similar entities within the Beneficiary States and entities in the Donor States, as well as international organisations, provided at least one entity within the Donor States is involved in the activity.

2. Having regard to the principle of proportionality, travel costs, including subsistence allowance, may be calculated as a lump sum, on the basis of defined rules approved by the National Focal Point.

**Article 8.9**

**Scholarships and mobility programmes**

1. Grants to natural persons from a programme under the programme area “Education, Scholarships, Apprenticeships and Youth Entrepreneurship” or from the scholarship component under any programme, may be calculated as a lump sum. Eligible items are:

(b) allocation for study material;

(c) travel costs, insurance and conference fees; and

(d) tuition fees.

2. The Programme Operator responsible for a programme under the programme area “Education, Scholarships, Apprenticeships and Youth Entrepreneurship” or a scholarship component within any programme shall specify any unit amounts. The determination of the amounts shall take into account the reasonable costs in the area of the host institution.

**Article 8.10**

**Eligibility of management cost incurred by Programme Operator**

1. The management cost of a Programme Operator up to a ceiling set in paragraph 2 may be considered as eligible costs. The first date of eligibility of expenditures of management cost of a Programme Operator shall be the date when the National Focal Point, in accordance with paragraph 3 of Article 5.2, designates the Programme Operator. The final date of eligibility shall be the 31 December 2024 unless an earlier date is specified in the programme agreement.

2. The maximum management cost of a programme shall be calculated as a percentage of the total eligible expenditures of the programme. It shall be the sum of the following amounts:

(a) 10% of the first € 10 million;

(b) 7% of the next € 40 million;

(c) 5% of the next € 50 million;

(d) 4% of the remaining total eligible expenditures of the programme.

3. In exceptional and duly justified cases, the FMC may, for programmes with total eligible expenditures up to € 5 million, approve a higher ceiling.

4. The following categories of expenditure are eligible as management costs, provided that the expenditure is proportionate and necessary:

(a) expenditures directly related to the preparation of the programme, including the development of the programme design, the results framework and stakeholder consultations;

(b) preparation of the implementation of the programme, including the development of procedures for project selection and financial flows;

5. Programme Operators within programme area “Civil Society” may, in order to meet obligations related to capacity building of the sector, suggest a higher ceiling for the management costs but never more than 30% above the ceiling stipulated in paragraph 2. Such a ceiling, if approved by the FMC, shall be explicitly stipulated in the programme agreement.

6. In cases where the selection of the Programme Operator in the Beneficiary State is conducted through a competitive tendering procedure, the FMC can in the programme agreement, decide that the contract value shall be accepted as management costs in lieu of actually incurred expenditures. The ceilings set out in paragraphs 2 and 5 shall apply.

7. The eligibility of costs under this article is conditional on the approval of the programme by the FMC.

8. In justified cases of budgetary constraints and at the discretion of the FMC, extraordinary advance payments towards costs related to the preparation of programmes may be disbursed to the Beneficiary States.
