According to the principles of correct and sound financial management, double funding is strictly forbidden.

Thus, costs for the same activity cannot be covered from two different funding sources, except for cases where complementarity can be clearly proven.

Funding for one and the same project cannot be granted more than once.

Also, if identical applications (in content) will be identified or if applications will contain paragraphs similar or identical to other applications (no matter if submitted under the same deadline or not, and no matter if submitted by the same candidate or different candidates, for the EEA Grants – Financial Mechanism 2014-2021 or for another programme managed by ANPCDEF), these applications will be rejected.

In the case where double funding is discovered after the respective applications have already been approved and funded, the grant beneficiaries will have to return to ANPCDEFP all the amounts already received for the implementation of the project.

12. OTHER ADMINISTRATIVE REGULATIONS

The Programme Operator reserves the right to carry out a financial analysis and institutional capacity check for Project Promoters who are NOT public institutions which either have a project approved with a grant of more than 60,000 Euro or, although not exceeding a grant of 60,000 Euro / project, exceeds EUR 100,000 / year, cumulated from several projects; if this internal risk analysis leads to the conclusion that places this promoter in a risk category, the PO may take the decision to award the contract under special conditions.

Contracts for the projects received from the candidates with whom the ANPCDEFP is in dispute for debts recovery and which have a score to high enough to be financed will be issued only under a special condition: with 0 (zero) advance/pre-financing and the return of all eligible costs after the approval of the final report.
